

## Egglepple Portfolio - Summary

The tools of imagination and wonder have, since its founding in 1991, guided Egglepple® in using peerless creativity to benefit those wishing to enjoy the richness of abstract thinking. *The Origamic Symphoneiy®* is explored through the three core opuses of *Stewart's Opera®*: *Opus FIN™*, *Opus GO™*, and *Opus MECH™*. Within each opus are various cine, fables, poetry, and lyrics, as experienced by Link Starbureiy and his *creatures™*.

Egglepple is a substantial player in the creative arts; and the authenticator of the *Koala Krayon®* - the computational instrument that handles tissue animation via stew choreography (stewart). As a toys portfolio, Egglepple franchises diversified intellectual properties.

Egglepple is a participant in and beneficiary of *United Under Economy (UUE®)*.

Joey Koala is the official mascot of Egglepple.
